Professional Summary

UI/UX Designer with 3+ years of experience building intuitive SaaS and enterprise interfaces. Currently driving the UX redesign of Quest2Travel’s Expense Management System for 500+ enterprise customers. Skilled in creating clear user flows, modern UI, and scalable design systems.

Experience

UX Developer | Quest2Travel by MakeMyTrip

Sep 2024 - Present · Mumbai, India

- Led the UX redesign of the Expense Management System used across 500+ enterprise customers, improving clarity in workflows like Expenses, Mileage, Advances, and Approvals.
- Worked with PMs and developers to ensure smooth implementation and consistent UI patterns; awarded Employee of the Quarter.

UI/UX Designer | Freelance

Apr 2023 - Jun 2024 · Remote

- Redesigned AP Tutors’ platform using user flows and wireframes to improve navigation clarity and content structure.
- Delivered responsive, brand-aligned interfaces while collaborating directly with founders to improve usability.

Product Design Intern | Humans of Rural India

Dec 2022 - Jan 2023 · Remote, India

- Created personas and early prototypes to support product direction for the mobile app.
- Designed an accessible dark mode that improved readability and visual comfort in low-light conditions.

UI Designer | seodapop

Sep 2021 - Dec 2021 · Remote (San Diego, USA)

- Designed responsive web pages aligned with brand guidelines and visual hierarchy principles.
- Improved layout clarity and usability through consistent spacing, structure, and clean UI patterns.
